PROSHEET PLUS 3	\$66.00 per roll	6'x33'	220 sf
------------------------	------------------	--------	--------

**TARKETT UNDERLAYMENT – ProSheet™ Plus 3 Fact Sheet **

PROVIDES FLOATING FLOOR SOLUTION:

- Residential LVT Direct Glue-Down & LVT Click (Free Span Technology)
- Residential Resilient Sheet Flooring (Fiberglass Reinforced)

ProSheet Plus 3 eliminates the need for underlayment panels over wood subfloors and provides a floating floor system for the products listed above.

ProSheet Plus 3 (PS+3) underlayment is installed underneath LVT/LVP glue down, LVT/LVP click or Loose Laid Resilient Sheet Flooring. PS+3 will minimize the effects of subfloor conditions such as deflection, staining and telegraphing of subfloor texturing. PS+3 should be stored in a clean, dry environment, protected from elements. The ideal temperature is between 65°F and 85°F (18°C – 29°C) 48 hours prior, during and after the installation.

SUBSTRATES THAT CAN BE COVERED WITH PROSHEET PLUS 3

Gypsum Underlayments	Residual Adhesives	Painted Subfloors	Concrete (all grade levels)	Stripwood Hardwood Floors
Oriented Strand Board	Flake Board	Particleboard	Existing Resilient Vinyl Floors	Existing Ceramic Tile

TWO INSTALLATION OPTIONS

- Vinyl side up; use QBond-One, 1/32" x 1/16" x 1/32" "U" notch trowel, dry set application.
- Vinyl side down; use QBond-One, 1/16" x 1/16" x 1/16" square notch trowel.
